

**Vital Link Services
Customized Safety Training
Wanetta Duber
1-216-436-0746**

We believe the skill of saving lives is one of the most valuable qualities an employee can possess. Vital Link Services can help your company achieve this by offering customized, personal and professional training. Classes are scheduled according to your time schedule, at your location. All instructors are certified instructors in the emergency medical field, with experience.

Our classes are \$30.00 for CPR and \$30.00 for First Aid training, which includes Blood Borne Pathogen awareness. Certification is through the American Heart Association. Each certification is for two years with individual cards issued. If both classes are taken together the cost is \$55.00 per person. A savings of \$5.00 per person. Minimum billing of 10 people.

Enclosed you will find the information concerning our services. After you review the information, I would appreciate the opportunity to talk with you to further discuss how we can help make your company safer and knowledgeable for any emergency.

I can be reached at 1-216-436-0746 or wzduber@aol.com.

References are available upon request.

Sincerely,

Wanetta Duber
President
